

JOINT MASTER OF SCIENCE DEGREE IN MECHANICAL ENGINEERING

an innovative collaboration between

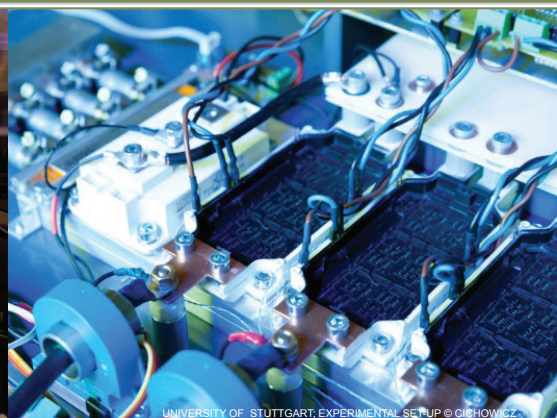

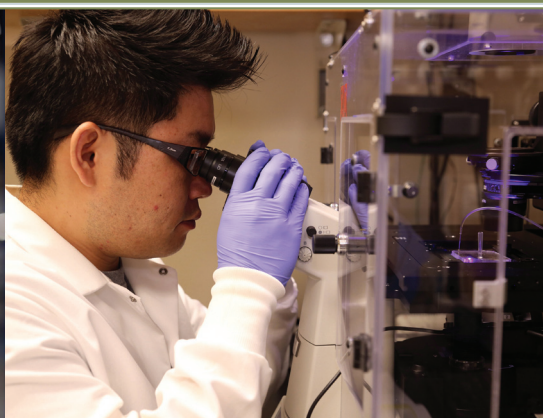

Universität Stuttgart

ABOUT THE PROGRAM

- Two-year program
- Instruction in English
- Research leading to an MS thesis
- Industrial internship in Germany
- Joint MS conferred by both institutions

JOINT M.S. DEGREE PROGRAM

Application

Applicants to the program from the United States should apply through Georgia Tech and those from Europe through the University of Stuttgart. Applicants will have completed, by the time of entering the program, a bachelor's degree in mechanical engineering or closely related discipline. In addition, students from the United States should have proficiency with the German language at the level of one undergraduate year of study. Admission to the program will be determined by a joint committee representing both institutions.
